

2nd-3rd Year Apprentice Electrician - Solar Installer

\$53,000 – \$55,500 per year

Full time permanent role based in Castlemaine

About Us

Central Spark Victoria, based in Castlemaine, is a provider of high quality renewable energy solutions. With more than a decade of experience we offer a range of customised solutions, consulting and diagnosis. We collaborate with our customers to provide the most suitable energy solution for their requirements.

We are looking for an exceptional 2nd or 3rd Year Apprentice Electrician to join our team of CEC accredited installers, apprentices, and trade hands. You will be working with a fully resourced and committed team to support and inspire you in the completion of your apprenticeship journey.

We offer a competitive salary as well as the opportunity to work on a variety of challenging and rewarding projects. If you are looking to jump across to the ever-growing and rewarding renewable sector, we encourage you to apply.

What we Offer

- Long-term employment security: We offer permanent positions with above award annual salaries and overtime opportunities. This means you can be confident in your job security and have the opportunity to earn a good income.
- A committed team: You will be working with a fully resourced and committed team who are passionate about solar energy and providing excellent customer service.
- A supportive work environment: We have a positive work environment where you will be valued, respected and supported in your apprenticeship training and study.
- High-quality products: You will be installing high-quality, reputable products for a locally owned and operated business. This means you will be working with the best products on the market and be part of a team that is committed to providing excellent customer service.

Tasks and Responsibilities

- Installation of compliant PV systems: You will be undertaking new and known work tasks, under supervision, for installing solar photovoltaic (PV) systems on both commercial and residential properties, on and off grid. You will progress and develop an understanding of all relevant safety and compliance regulations as well as assisting to complete all necessary documentation.
- OH&S requirements: You will work collaboratively to ensure observance of all applicable occupational health and safety (OH&S) requirements. This includes internal guidance and support with all safety procedures and using the correct safety equipment.
- Commitment: You will be committed to successfully undertaking and completing your RTO Training Program.
- Teamwork: You will be working as part of an organised work team, so it is important that you are able to work effectively with others, constructively and positively contributing to our workplace culture and efficient operations.
- Customer service: You will be part of a team committed to providing excellent customer service to our clients. You will be responsible for communicating with your team members and following directions with care and professionalism to the best of your ability to enhance the customer experience.

Required Qualifications & Experience

- 2nd or 3rd Year Apprentice Electrician
- Industry White Card & Working Safely at Heights
- Current Drivers Licence

Please include a CV and cover letter in your application. Any enquiries can be directed to alison.maclaren@central-spark.com

Applications close 5pm Friday 31 October 2025. Only shortlisted candidates will be contacted.
